Somerville, NJ 08876
Ph: (908) 668-7900

As part of our ongoing efforts to complete the Holland Road water main replacement project, CRJ Contracting and New Jersey American Water will be closing Holland Road between Rt. 206 and Fowler Rd. to thru traffic from 1/3/24 to 1/19/24.

This closure will help facilitate a jack & bore process that is being utilized to install a new water main under a stream crossing on Holland Rd. Due to the scope of this part of the construction, closing the road will ensure the safety of all residents and motorists.

All traffic should access Holland Road via Old Dutch Road or Fowler Road while this closure is in effect. We regret any inconvenience this may cause.
