PUBLIC COMMENT FOR NON-AGENDA ITEMS

Garvin Walsh, Gladstone, provided an update from the Liberty Park Association. Mr. Walsh stated LPA received a report stating the swans were contributing to the algae problem in the pond. Because the swans are a popular attraction of the pond, he wanted to get a sense from Council as to whether it would entertain any recommendations from the LPA for addressing the pond that would exclude swans. Council was in consensus to have the LPA explore solutions to the pond that did not include the swans.

Tom Dill, Pfizer Drive, asked Council when Old Chester Road would be resurfaced. Council informed him it would be done within a month.

PRESENTATIONS

SOMERSET HILLS REGIONAL SCHOOL DISTRICT SCHOOL BOARD PRESENTATION ON THE NOVEMBER 3, 2015, REFERENDUM

Somerset Hills Regional School District Superintendent Frances Wood and Business Administrator Nancy Hunter gave a presentation on the November 3, 2015, referendum where the public will vote on funding the creation of special and general education classrooms at Bernards High School, conversion of former unused auditorium to a library/media center at BHS, additional parking spaces and lot repair at BHS campus, Bedwell School bathroom renovations and ADA compliance; and new sidewalk at Bedwell/Bernardsville Middle School Campus. Ms. Wood and Ms. Hunter reviewed the projects and provided more information concerning the cost of the projects. The total costs of the project would be \$5,829,094. The Board has received State funding in the amount of 40%, reducing the taxpayers' share of the project to 60% of the project cost or a \$3,497,456. Finance Chair Robert Baker provided an explanation of the debt service schedule.

Mr. Dill asked about the student enrollment of the district. Ms. Wood informed him the district had 2011 students.

OPEN SPACE ADVISORY COMMITTEE DISCUSSION ON BLUE BIRD FARM ACQUISITION.

New Jersey Conservation Foundation Open Space and Farmland Preservation Consultant, Beth Davission, and Open Space Advisory Committee Chair, John Sweeney, provided a presentation of the acquisition of Bluebird farm through the Borough's Farmland Preservation Planning Incentive Grant Program.

Ms. Davission provided a review of the application. The current application with the State Agriculture Development Committee is for the acquisition of a farmland preservation easement on block 26, lots 16.02 and 16.08 for the certified market value of \$28,000 per acre. The State Agriculture Development Committee approved this application.

Council, Borough Planner John Szabo, Ms. Davission and Mr. Sweeney discussed how many homes could be built on this property. They determined four or five homes could be built on the property with the possibility of an additional carriage home for each home.

Council discussed funding this acquisition. It would request a cost share from the County Agriculture Development Board in the amount of 20% of the CMV to add the SADC's 60% cost-share. The remaining amount, 20% (\$144,000), would be funded through the Borough's Open Space Trust Fund.

Council discussed the possibility of high-density housing being built on this parcel if the development rights were not acquired. Mr. Szabo stated that although the current zoning did not permit that type of housing in this zone, a developer could appeal to the court to allow for it as a way to satisfy the Borough's COAH obligation.

Council asked whether this land could be used for active or passive recreation. Mr. Szabo stated this transaction was only for the development rights and would not allow for recreational use.

Council discussed that the initial application was made as a contract purchaser of lot 16.02, and that contract with Vernon Associates had expired. Council discussed whether the applicant should have a contract in place and express a commitment to sell the easement rights for the CMV before moving forward, as the CADB would look more favorably in the share-cost application.

Mayor Muller opened the discussion to the public.

Garvin Walsh stated he did not think it was appropriate to factor in carriage homes as a possibility of being built on this property as there were not many carriage homes in the Borough. Mr. Walsh asked what the benefit was to Borough residents to have contiguous farms. He stated he felt the benefits were to the farmers because of efficiencies in farming. Mr. Walsh stated that previous open space purchases have occurred at a discount to CMV. Mr. Walsh asked the

Statewide average per acre price for development rights. Mr. Walsh asked if there was a financial analysis done to see if there were any lost revenues due to losing the development rights of this property.

Councilman Smith made the following motion:

Resolve to proceed with an offer on the Bluebird Farm property at the certified market value; contingent upon approval from the CADB participation in the cost share for 20% and Vernon Associates acceptance to have the option in place within 60 days.

Councilman Corigliano asked Mr. Bruder if he had a conflict of interest voting on this motion as he had a real estate transaction with the applicant six years ago. Mr. Bruder stated that there was no conflict.

Councilman Corigliano seconded the motion.

On call of the roll, the following vote was cast:

Councilman Caminiti	Aye
Councilman Corigliano	Aye
Councilman Gunning	Aye
Councilman Simpson	Aye
Councilman Smith	Aye
Councilman Suriano	Absent

Council directed Ms. Davisson to prepare the offer letter.

Council took a break at 9:50 p.m.

Council returned from a break at 10:05 p.m.

RECREATION COMMISSION WILL MAKE A PRESENTATION ON A NATURAL SKATING RINK AT THE BALLFIELDS AT THE MUNICIPAL COMPLEX

Councilman Simpson informed Council the proposal to have an ice skating rink on the ball fields was not going to be possible. The Recreation Commission is looking into the pond at Liberty Park as a place for public ice skating. Recreation Commissioner Rich Rampinelli provided Council with a proposal that would use volunteers to prepare the pond for skating when it freezes. The volunteers would clean off snow from the ice pond to have the ice freeze thicker.

Council was in consensus to allow the volunteers to prepare the pond for ice skating by using hand tools only. Mr. Bruder will prepare insurance waivers.

Mr. Herrera informed her all three steps had been taken. Ms. Williams stated she fully supported the land use ordinance that Council adopted.

Ms. Williams stated she felt, and had supporting case law, the Land Use Board subcommittee formed to submit a recommendation to the LUB on how to properly define a permitted use for the Matheny School was not complying with the Sunshine Law and Open Public Meetings Act. She felt that any decisions made by the LUB that came from recommendations formed by this subcommittee should be negated. Council asked Ms. Williams to submit this concern to Land Use Board Attorney Roger Thomas.

Christopher Downing addressed Council regarding the former Somerset County Public Works Yard remediation. He stated that if grass was grown on the entire area, future uses may be limited because of the proximity to the Peapack Brook.
